Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements

for the year ended March 31, 2019

Note 1

I. Company Overview

Prakriti Plaza Facilities Management Private Limited (“the Company”) having CIN: U70109MH2016PTC284197 is engaged primarily in the business of maintenance of commercial property of Godrej Prakriti project of Godrej Properties Limited. The Company is a Subsidiary of Public Company incorporated on July 28, 2016 and is domiciled in India having its registered office at Godrej One, 5th Floor, Pirojshahnagar, Eastern Express Highway, Vikhroli, Mumbai-400079. The company is a subsidiary of a Public company and hence it is a public company by virtue of section no. 2 of Companies Act 2013.

II. Basis of preparation and measurement

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) to comply with the Section 133 of the Companies Act, 2013 (“the 2013 Act”) read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016, and the relevant provisions and amendments, as applicable. The financial statements have been prepared on accrual basis under the historical cost convention except certain financial assets and financial liabilities and defined benefit plans measured at fair value.

The financial statements of the Company for the year ended March 31, 2019 were approved by the Board of Directors and authorised for issue on April 27, 2019.

a) Operating cycle

All assets and liabilities have been classified into current and non-current based on a period of twelve months.

b) Functional and Presentation Currency

These financial statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest thousands, unless otherwise stated.

c) Use of Estimates and Judgements

The preparation of the financial statements in conformity with Ind AS requires the use of estimates, judgements and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known/materialise.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

II. Basis of preparation and measurement (*Continued*)

c) Use of Estimates and Judgements (*Continued*)

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are as follows:

- *Evaluation of satisfaction of performance obligation at a point in time for the purpose of revenue recognition*

Determination of revenues under the satisfaction of performance obligation at a point in time necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the timing of satisfaction of performance obligation, costs to completion, the expected revenues from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The Company recognizes revenue when it company satisfies its performance obligation

- *Useful life and residual value of property, plant and equipment and intangible assets*

Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013 or based on internal technical evaluation. Assumptions are also made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

The estimation of residual values of assets is based on management's judgment about the condition of such asset at the point of sale of asset.

Fair value measurement of financial instruments

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation technique. The inputs to these models are taken from the observable market where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Changes in assumptions relating to these assumptions could affect the fair value of financial instruments.

- *Recognition of deferred tax asset*

The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

- *Provisions and contingencies*

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements *(Continued)*

for the year ended March 31, 2019

II. Basis of preparation and measurement *(Continued)*

d. Standards issued but not yet effective

Ind AS 116, Leases: Ind AS 116 is applicable for financial reporting periods beginning on or after 1 April 2019 and replaces existing lease accounting guidance, namely Ind AS 17 Leases. Ind AS 116 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use ("ROU") asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The nature of expenses related to those leases will change as Ind AS 116 replaces the operating lease expense (i.e. rent) with depreciation charge for ROU assets and interest expense on lease liabilities. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard - i.e. lessors continue to classify leases as finance or operating leases. Management believes, based upon preliminary analysis that the impact of new lease standard is not material on its financial statements.

In addition to the above, the following amendments to existing standards have been issued, are not yet effective and are not expected to have a significant impact on the Group's financial statements:

Amendments to Ind AS 109, Financial Instruments: amendments relating to the classification of particular pre-payable financial assets.

Amendments to Ind AS 12, Income Taxes, clarify that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transactions that generated the distributable profits - i.e. in profit or loss, other comprehensive income or equity. Further Appendix C, uncertainty over income tax treatments has been added to clarify how entities should reflect uncertainties over income tax treatments, in particular when assessing the outcome a tax authority might reach with full knowledge and information if it were to make an examination.

Amendments to Ind AS 23, Borrowing Costs, clarify that the general borrowings pool used to calculate eligible borrowing costs excludes only borrowings that specifically finance qualifying assets that are still under development or construction.

e. Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements *(Continued)*

for the year ended March 31, 2019

II. Basis of preparation and measurement *(Continued)*

e. Measurement of fair values (continued)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

III. Significant Accounting Policies

a. Financial instruments

I. Financial assets

Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Recognition and initial measurement

The Company recognises financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in three categories:

- Debt investments at amortised cost
- Debt investments at fair value through profit or loss
- Equity investments

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

Debt instruments designated at Fair Value through Profit or Loss

Debt instruments included in the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognised in the statement of profit and loss.

Equity investments

All equity investments other than investment in subsidiaries, joint ventures and associate are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

III. Significant Accounting Policies (Continued)

a. Financial instruments (continued)

Classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income (OCI). There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised when:

- (a) The rights to receive cash flows from the asset have expired, or
- (b) the Company has transferred substantially all the risks and rewards of the asset, or
- (c) The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

The Company applies 'simplified approach' measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime Expected Credit Loss at each reporting date, right from its initial recognition.

II. Financial Liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost.

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

III. Significant Accounting Policies (Continued)

a. Financial instruments (continued)

Amortised cost is calculated by taking into account any discount or premium on acquisition and transactions costs. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

III Share Capital

Ordinary equity shares

Incremental costs directly attributable to the issue of ordinary equity shares, are recognised as a deduction from equity.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

III. Significant Accounting Policies (*Continued*)

b. Revenue Recognition

IND AS 115 has been notified by Ministry of Corporate Affairs (MCA) on March 28, 2018 and is effective from accounting period beginning on or after April 01, 2018.

The Company receives maintenance amount from the customers and utilises the same towards the maintenance of the respective projects. Revenue is recognised to the extent of maintenance expenses incurred by the Company towards maintenance of respective projects. Balance amount of maintenance expenses to be incurred is reflected as liability under the head other current liabilities.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract Liability is recognized when there is billing in excess of revenue and advance received from customers.

Interest income is accounted on an accrual basis at effective interest rate.

c. Income-tax

Income tax expense comprises current tax and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent there is convincing evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

III. Significant Accounting Policies (*Continued*)

c. Income Tax (Continued)

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Minimum Alternative Tax (MAT) credit

MAT credit is recognised as a deferred tax asset only when and to the extent there is a convincing evidence that the Company will pay normal tax during specified period. MAT credit is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

d. Borrowing Costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

Borrowing costs, pertaining to development of long term projects, are transferred to Construction work in progress, as part of the cost of the projects upto the time all the activities necessary to prepare these projects for its intended use or sale are complete.

All other borrowing costs are recognised as an expense in the year which they are incurred.

e. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Prakriti Plaza Facilities Management Private Limited

Notes Forming Part of Financial Statements (*Continued*)

for the year ended March 31, 2019

III. Significant Accounting Policies (*Continued*)

f. Provisions and contingent liabilities

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in the notes. Contingent liabilities are disclosed for

- (1) possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (2) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the financial statements. However, the same are disclosed in the financial statements where an inflow of economic benefit is probable.

g. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

h. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

i. Change in significant accounting policies

The Company has applied Ind AS 115 Revenue from contracts with customers using the full retrospective approach (for all contracts other than completed contracts) i.e. by recognising the cumulative effect of initially applying Ind AS 115 as an adjustment to the opening balance of equity as at April 01, 2017. There is no impact on account of implementation of Ind AS 115 "Revenue from contracts with customers". Accordingly, the comparative information is not restated.

Ind AS 115 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. Under Ind AS 115, with effect from April 01, 2017, revenue is recognised when a customer obtains control of the goods or services as compared to earlier percentage of completion method as per the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable).

As these are the first set of the Company's financial statements prepared in accordance with Ind AS 115, an explanation of how the transition to Ind AS 115 has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 19 to the financial statements.

b) Risk Management Framework

The Company's Board of Directors have overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company follows the Holding Company's / Group's risk management policies to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The management is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the management

c) Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- (i) Credit Risk
- (ii) Liquidity Risk
- (iii) Market Risk.

13 Financial instruments – Fair values and risk management (Continued)

c) Financial risk management (Continued)

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, investments in debt securities, loans given to related parties and project deposits.

The carrying amount of financial assets represents the maximum credit exposure.

Trade Receivables

Customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership, therefore substantially eliminating the Company's credit risk in this respect.

The Company's credit risk with regard to trade receivable has a high degree of risk diversification, due to the large number of projects of varying sizes and types with numerous different customer categories in a large number of geographical markets.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

There is no impairment in respect of trade receivables during the year.

Bank balances

Credit risk from cash and bank balances is managed by the Company's treasury department in accordance with the Company's policy.

13 Financial instruments – Fair values and risk management (Continued)

c) Financial risk management (Continued)

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Company does not have any derivative financial liabilities. The Company however invests its surplus funds in bank fixed deposits.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date:

March 31, 2019	Carrying Amount	Contractual cash flows				
		Total	Within 12 months	1-2 years	2-5 years	More than 5 years
Financial Liabilities						
Current						
Advance from customers for maintenance	6,607.10	6,607.10	6,607.10	-	-	-
Trade Payables	269.59	269.59	269.59	-	-	-
Other Current Financial Liabilities	-	-	-	-	-	-

March 31, 2018	Carrying Amount	Contractual cash flows				
		Total	Within 12 months	1-2 years	2-5 years	More than 5 years
Financial Liabilities

c) Financial risk management (Continued)

(iii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rate and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) Currency Risk

Currency risk is not material, as the Company's primary business activities are within India and does not have significant exposure in foreign currency.

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any significant risk as it is having exposure to Fixed Interest rate debentures only.

14 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

As at 31, March 2019 and 31, March 2018, the Company has only one class of equity shares and has no debt consequent to such capital structure, there are no externally imposed capital requirements.
