Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1

I. Company Overview

Godrej Prakriti Facilities Private Limited ("the Company") is engaged primarily in the business of maintenance of residential property of Godrej Prakriti project of Godrej Properties Limited. The Company is a Subsidiary of Public Company incorporated on June 09, 2015 and domiciled in India having its registered office at Godrej One, 5th Floor, Pirojshahnagar, Eastern Express Highway, Vikhroli, Mumbai-400079.

II. Basis of preparation and measurement

a) Statement of compliance

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 ("the Act") and the relevant provisions and amendments, as applicable.

These financial statements of the Company for the year ended March 31, 2023 were authorised for issue by the company's Board of Directors on June 8, 2023.

b) Functional and Presentation Currency

These financial statements are presented in Indian rupees, which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest thousands, unless otherwise stated.

c) Basis of measurement

These financial statements have been prepared on historical cost basis except certain financial instruments measured at fair value.

d) Use of Estimates and Judgements

The preparation of the financial statements in conformity with Ind AS requires the use of estimates, judgements and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Management believes that the estimates made in the preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively in current and future periods.

(Currency in INR Thousands)

Note 1 (*Continued*)

II. Basis of preparation and measurement (*Continued*)

d) Use of Estimates and Judgements (*Continued*)

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are as follows:

- *Useful life and residual value of property, plant and equipment*

Useful lives of tangible assets are based on the life prescribed in Schedule II of the Act. In cases, where the useful lives are different from that prescribed in Schedule II of the Act, they are based on internal technical evaluation. Assumptions are also made, when the Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised

The estimation of residual values of assets is based on management's judgement about the condition of such asset at the point of sale of asset.

- *Fair value measurement of financial instruments*

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation technique. The inputs to these models are taken from the observable market where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Changes in assumptions relating to these inputs could affect the fair value of financial instruments.

- *Recognition of deferred tax asset*

The deferred tax assets in respect of brought forward business losses is recognised based on reasonable certainty of the projected profitability, determined on the basis of approved business plans, to the extent that sufficient taxable income will be available to absorb the brought forward business losses.

- *Provisions and contingencies*

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

II. Basis of preparation and measurement (*Continued*)

e) Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

f) Operating cycle

All assets and liabilities have been classified into current and non-current based on a period of twelve months.

g) Going Concern

The Company has been incorporated for the maintenance of residential property of Godrej Prakriti project of Godrej Properties Limited situated at 187, Sukchar Girja, F/1, B.T Road, Sodepur, Kolkata, West Bengal. The management believes that the company will continue to operate as a going concern for the foreseeable future, release its assets and meet all its liabilities as they fall due for payment, in the normal course of business. In case of any fund requirement for development/continuing operation of the company, the shareholders shall fund/arrange funds in form of Equity Loan.

Accordingly, these financial statements have been prepared on going concern basis and do not include any adjustments relating to the recoverability and classification of recorded assets, or to amounts and classification of liabilities that may be necessary if the entity is unable to continue as a going concern.

Note 1 *(Continued)*

II. Basis of preparation and measurement *(Continued)*

h) Standard issued but not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1st, 2023, Key amendments are as below:-

Ind AS 1 – Presentation of Financial Statements & Ind AS 34 – Interim Financial Reporting-

The amendment substitutes 'significant accounting policies' with 'material accounting policy information'.

Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. Accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed.

Ind AS 8 – Accounting policies, changes in accounting estimate and errors-

Definition of accounting estimate is substituted by Accounting estimates are monetary amounts in financial statements that are subject to measurement uncertainty.

Ind AS 12 – Income Taxes –

The amendments clarify how companies account for deferred tax on a transaction that is not a business combination and which may lead to the initial recognition of an asset and a liability and, at the time of the transaction, affect neither accounting profit nor taxable profit. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The Company is in process of evaluating the impact of the above amendments which is not expected to have any material impact on the financial statements of the Company

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

Note 1 (*Continued*)

III. Significant Accounting Policies

a) Property, plant and equipment and depreciation

i) *Recognition and Measurement:*

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised from the financial statements, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment recognised in the statement of profit and loss in the year of occurrence.

Assets under construction includes the cost of property, plant and equipment that are not ready to use at the balance sheet date. Advances paid to acquire property, plant and equipment before the balance sheet date are disclosed under other non-current assets. Assets under construction are not depreciated as these assets are not yet available for use.

ii) *Subsequent expenditure*

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii) *Depreciation*

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment of the Company has been provided using the written down value method based on the useful lives specified in Schedule II of the Act.

Assets costing less than INR 5,000 are depreciated at 100% in the year of acquisition.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

b) Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment loss is recognised for such excess amount. The impairment loss is recognised as an expense in the statement of profit and loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and the value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the statement of profit and loss, to the extent the amount was previously charged to the statement of profit and loss. In case of revalued assets, such reversal is not recognised.

c) Financial instruments

I. Financial assets

Classification

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognised when they originate.

The Company recognises financial assets (other than trade receivables and debt securities) when it becomes a party to the contractual provisions of the instrument. All financial assets are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in three categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through profit or loss
- Equity investments

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

c) Financial instruments (*Continued*)

I. Financial assets (*Continued*)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

A debt investment is measured at FVOCI if it meets both of the following conditions or is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cashflow and selling financial assets, and
- The contractual terms of the financial assets give rise on the specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments at Fair Value through Profit or Loss

Debt instruments included in the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognised in the statement of profit and loss.

Equity investments

All equity investments other than investment in subsidiaries, joint ventures and associate are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

c) Financial instruments (*Continued*)

I. Financial assets (*Continued*)

Equity investments (*Continued*)

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income (OCI). There is no recycling of the amounts from OCI to the statement of profit and loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognised when:

- (a) The rights to receive cash flows from the asset have expired, or
- (b) the Company has transferred substantially all the risks and rewards of the asset, or
- (c) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

The Company applies 'simplified approach' measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime Expected Credit Loss at each reporting date, right from its initial recognition.

II. Financial Liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortised cost.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

c) Financial instruments (*Continued*)

II. Financial Liabilities (*Continued*)

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised.

Amortised cost is calculated by taking into account any discount or premium on acquisition and transactions costs. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

III Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

IV. Share Capital

Ordinary equity shares

Incremental costs directly attributable to the issue of ordinary equity shares, are recognised as a deduction from equity.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

d) Compound financial instruments

Compound financial instruments issued by the company comprises of convertible debentures denominated in INR that can be converted to equity shares at the option of the holder, wherein the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of a compound Financial instrument is initially recognised at the fair value of a similar liability that does not have equity conversion option. The Equity component is initially recognised as the difference between fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

e) Revenue Recognition

Revenue is recognized at an amount of transaction price that is allocated to that performance obligation when (or as) the performance obligation is satisfied.

The transaction price is amount of consideration that the entity expects to be entitled in exchange for transferring promised services to group entities.

Recovery for Common area maintenance (CAM) on quarterly basis and is billed on basis of saleable area.

f) Income tax

Income tax expense comprises current tax and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to items recognised directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (*Continued*)

for the year ended March 31, 2023

(Currency in INR Thousands)

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

f) Income tax (*Continued*)

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent there is convincing evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Minimum Alternative Tax (MAT)

MAT credit is recognised as a deferred tax asset only when and to the extent there is a convincing evidence that the Company will pay normal tax during specified period. MAT credit is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

f) Income tax (*Continued*)

Section 115BAA

A new Section 115BAA was inserted in the Income Tax Act, 1961, by The Government of India on September 20, 2019 vide the Taxation Laws (Amendment) Ordinance 2019 which provides an option to companies for paying income tax at reduced rates in accordance with the provisions/conditions defined in the said section.

g) Borrowing Costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

All other borrowing costs are recognised as an expense in the year which they are incurred.

h) Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

i) Earnings per share

This Basic earnings per share is computed by dividing the profit after tax attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit after tax attributable to the equity shareholders as adjusted interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. If potential equity shares converted into equity shares increases the earnings per share, then they are treated as anti-dilutive and anti-dilutive earning per share is computed.

Note 1 (*Continued*)

III. Significant Accounting Policies (*Continued*)

j) Provisions and contingent liabilities

A provision is recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The unwinding of the discount is recognised as finance cost.

Contingent liabilities are disclosed in the notes. Contingent liabilities are disclosed for

- (1) possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (2) present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the financial statements. However, the same are disclosed in the financial statements where an inflow of economic benefit is probable.

k) Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

l) Interest income

Interest income is accounted on an accrual basis at effective interest rate.

Interest on delayed payment and forfeiture income are accounted based upon underlying agreements with customers.

m) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

Trade Payables	-	21,407.68	21,407.68	-	-	-	-
	-	21,407.68	21,407.68	-	-	-	-

b) Risk Management Framework

The Company's Board of Directors have overall responsibility for establishment and oversight of the Company's risk management framework. The Company follows the Holding Company's risk management policies to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The management monitors compliance of risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The management is assisted in its oversight role by Holding Company's internal audit team. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the management.

c) Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- (i) Credit Risk
- (ii) Liquidity Risk
- (iii) Market Risk.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (Continued)

for the year ended March 31, 2023

(Currency in INR Thousands)

17 Financial instruments – Fair values and risk management (Continued)

c) Financial risk management (Continued)

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The carrying amount of financial assets represents the maximum credit exposure.

Trade Receivables

Customer credit risk is managed by requiring customers to pay advances through progress billings before providing maintenance services, therefore substantially eliminating the Company's credit risk in this respect.

The Company's credit risk with regard to trade receivable has a high degree of risk diversification due to the project having numerous customers.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

There is no impairment in respect of trade receivables during the year.

Cash and Bank balances

Credit risk from cash and bank balances is managed by the Company's treasury department in accordance with the Company's policy.

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (Continued)

for the year ended March 31, 2023

(Currency in INR Thousands)

17 Financial instruments – Fair values and risk management (Continued)

c) Financial risk management (Continued)

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Company does not have any derivative financial liabilities. The Company however invests its surplus funds in bank fixed deposits.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date:

March 31, 2023	Carrying Amount	Contractual cash flows				
		Total	Within 12 months	1-2 years	2-5 years	More than 5 years
Financial Liabilities						
Current						
Trade Payables	26,623.94	26,623.94	26,623.94	-	-	-

March 31, 2022	Carrying Amount	Contractual cash flows				
		Total	Within 12 months	1-2 years	2-5 years	More than 5 years
Financial Liabilities						
Current						
Trade Payables	21,407.68	21,407.68	21,407.68	-	-	-

Note: The Company has sufficient current assets comprising of Other Receivables, Cash & Cash Equivalents, Other Bank Balances (other than restricted balances), Other Current Financial Assets and Investment in Fixed Deposit (including investment which are non current in nature but can be liquidated immediately), to manage the liquidity risk, if any in relation to current financial liabilities

Notes forming part of financial Statements (Continued)

for the year ended March 31, 2023

(Currency in INR Thousands)

17 Financial instruments – Fair values and risk management (Continued)

c) Financial risk management (Continued)

(iii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rate and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) Currency Risk

Currency risk is not material, as the Company's primary business activities are within India and does not have significant exposure in foreign currency.

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the management in structuring the Company's borrowings to achieve a reasonable, competitive, cost of funding.

c) Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

18 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

As at 31, March 2023 and 31, March 2022, the Company has only one class of equity shares and has no debt consequent to such capital structure, there are no externally imposed capital requirements.

23 Segment Reporting

A. Basis of Segmentation

Factors used to identify the entity's reportable segments, including the basis of organisation

For management purposes, the Company has only one reportable segment namely, maintenance of real estate property. The Board of Directors of the Company acts as the Chief Operating Decision Maker ("CODM"). The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators.

B. Geographical Information

The geographic information analyses the Company's revenue and Non-Current Assets by the Company's country of domicile and other countries. As the Company is engaged in Maintenance of Real Estate property in India, it has only one reportable geographical segment.

C. Information about major customers

None of the customers for the year ended March 31, 2023 and March 31, 2022 constituted 10% or more of the total revenue of the Company.

24 Ratio Analysis

Sr. No.	Ratio	March 31, 2023	March 31, 2022	Change %	Reason for more than 25% change
1	Current Ratio	0.54	1.30	-58.02%	The value of non current fixed deposits increased which resulted in lower current assets and decline in ratio
2	Debt-Equity Ratio (Gross)	-	-	0.00%	Not Applicable
3	Debt-Equity Ratio (Net)	-	-	0.00%	Not Applicable
4	Debt Service Coverage Ratio	-	-	0.00%	Not Applicable
5	Return on Equity Ratio	0.09	0.07	36.93%	Higher interest income and lease rent resulted in higher profitability and the ratio improved
6	Inventory Turnover Ratio	-	-	0.00%	Not Applicable
7	Trade Receivables Turnover Ratio	-	-	0.00%	Not Applicable
8	Trade Payables Turnover Ratio	2.80	3.52	-20.56%	Not Applicable
9	Net Capital Turnover Ratio	(4.72)	6.29	-175.14%	The value of non current fixed deposits increased which resulted in lower current assets and decline in ratio
10	Net Profit Ratio	0.01	0.01	33.88%	Higher interest income and lease rent resulted in higher profitability and the ratio improved
11	Return on Capital Employed	0.12	0.09	34.79%	Higher interest income and lease rent resulted in higher profitability and the ratio improved
12	Return on Investment	0.13	0.05	195.24%	Higher interest income resulted in higher other income and the ratio improved

(a) Formulae for computation of ratios are as follows:

Sr. No.	Particulars	Formula
1	Current Ratio	$\frac{\text{Current Assets}}{\text{Current Liabilities}}$
2	Debt-Equity Ratio (Gross)	$\frac{\text{Current Borrowings} + \text{Non-Current Borrowings}}{\text{Total Equity}}$
3	Debt-Equity Ratio (Net)	$\frac{\text{Current Borrowings} + \text{Non-Current Borrowings} - \text{Cash and Bank Balances} - \text{Fixed Deposits} - \text{Liquid Investments}}{\text{Total Equity}}$
4	Debt Service Coverage Ratio	$\frac{\text{Earnings before Interest and Tax (Profit/(loss) before tax} + \text{Finance cost} + \text{Finance cost included in Cost of Sales} + \text{Depreciation and amortisation expense})}{(\text{Finance Cost (excludes interest accounted on customer advance as per EIR Principal)} + \text{Principal Payment due to Non-Current Borrowing repayable within one year})}$

Godrej Prakriti Facilities Private Limited

Notes forming part of financial Statements (Continued) for the year ended March 31, 2023

5	Return on Equity Ratio	$\frac{\text{Profit/(loss) for the year}}{\text{Average Equity}}$
6	Inventory Turnover Ratio	$\frac{\text{Cost of Material Consumed + Changes in inventories of finished goods and construction work-in-progress}}{\text{Average Inventory}}$
7	Trade Receivables Turnover Ratio	$\frac{\text{Revenue from Operations}}{\text{Average Trade Receivables}}$
8	Trade Payables Turnover Ratio	$\frac{\text{Cost of Materials Consumed + Project Maintenance Expense}}{\text{Average Trade Payables}}$
9	Net Capital Turnover Ratio	$\frac{\text{Revenue from Operations}}{\text{Average Working Capital (Current Assets - Current Liabilities)}}$
10	Net profit ratio	$\frac{\text{Profit/(loss) for the year}}{\text{Total Income}}$
11	Return on Capital Employed	$\frac{\text{Earnings before Interest and Tax (Profit/(loss) before tax + Finance cost + Finance cost included in Cost of Sales + Depreciation and amortisation expense)}}{\text{Average Capital Employed (Tangible Net Worth + Total Debt + Deferred Tax Liability (net of Deferred Tax Assets))}}$
12	Return on Investment	$\frac{\text{Other Income}}{\text{Average of Cash and Bank Balances + Fixed Deposits + Liquid Investments + Investment in Fully paid-up Equity Instruments}}$

25 Transaction with Struck off Companies

There are no transactions entered in current year and in previous year by the company with any of the companies whose name is struck off by Ministry of Corporate Affairs(MCA) from company register.
